

## Technical rider TMBSWOOH - DeJong&DeWitte

### General

Genre: Video installation  
Performance: Indoor or outdoor, darkened or after sunset  
Option: with live string quartet  
Length: 10 minutes, ongoing, multiple days  
Team: 2 persons (to build-up and break down)  
Audience: Unlimited (25+ seats + standing)  
Technical: Self-sufficient

### Location

Space: minimum 6 meters wide, 6 meters deep, and 3.5 meters high.  
Dark or low light, suitable for video projection with 2 HD projectors."

### The video installation

- Measures minimal 6x6x3,5 meters for the playground, incl. the audience (25 seats)
- 6 wooden ladders and 18 white wooden boxes (to project on).
- We bring our own technical equipment (Beamers, set-up and audio).
- We bring 25 stools for the audience to sit.
- The video-installation can be played ongoing. It can start each 15 minutes.
- We need 2 electricity points.
- The video installation can be performed with live music.
- The location is safe or secured during the night.

### Team

- We travel with 2 for artistic production/technique
- Live music can be performed by a string-quartet (4 musicians).

### Build-up & break down

- We need to be present min. 5 hours ahead to set-up the installation.
- We break down after the last show, depending on the time of the last performance.

### Transport / Parking

- We travel with 1 small van with our technical equipment and set-up.
- We need to unload at the location.

### Hotel / Meals

- 1 double room.
- We are with 2 vegetarians.
